

Why International Patients Choose Dr. Ashish Singh & AJRC in India for Orthopedic Care

In today's interconnected world, healthcare is no longer confined to local or national boundaries. With the rise of **medical tourism** and **global patient services**, patients from around the world are seeking high-quality care in countries renowned for their advanced medical facilities. India, in particular, has emerged as a leading destination for **international patients**, offering world-class healthcare services that cater to a diverse range of needs. In this blog, we'll explore the essential aspects of **international patient services** and highlight why India stands out as a top choice for global health tourism. Additionally, we'll take a closer look at Ashish Joint Replacement Center (AJRC) in Patna, and **Dr. Ashish Singh, Internationally Renowned Orthopaedic Surgeon** who is recognized as one of the **best orthopedic doctors in Patna**.

What Are International Patient Services?

International patient services encompass a range of specialized offerings designed to assist patients traveling from abroad for medical care. These services include everything from pre-arrival consultations and visa assistance to post-treatment follow-ups and accommodation arrangements. The goal is to provide a seamless and comfortable experience for patients, ensuring that they receive the best possible care while navigating the complexities of healthcare in a foreign country.

The Rise of Medical Tourism in India

India has become a hub for **medical tourism**, attracting patients from around the globe seeking affordable and high-quality healthcare. The country's healthcare system is renowned for its advanced technology, skilled medical professionals, and cost-effective treatments. Whether it's for complex surgeries, specialized treatments, or routine check-ups, India offers a range of medical services that meet international standards.

Ashish Joint Replacement Center Patna(AJRC): Leading Orthopedic Hospital in India for International Patients

Ashish Joint Replacement Center (AJRC) in Patna is a premier institution dedicated to providing exceptional orthopedic care to **international patients**. Under the leadership of **Dr. Ashish Singh**, who is widely regarded as one of the best orthopedic doctors in Patna, AJRC has established itself as a top destination for joint replacement and other orthopedic procedures. Here's why AJRC and Dr. Singh are standout choices for **international patients**:

- Expert Care and Advanced Technology:** **Dr. Ashish Singh** is renowned for his expertise in joint replacement surgeries, including hip and knee replacements. With a reputation as a leading orthopedic surgeon in Patna, he utilizes advanced robotic-assisted surgery techniques to enhance precision and improve surgical outcomes. The center is equipped with state-of-the-art technology, ensuring that patients receive the highest quality of care.
- Comprehensive International Patient Services:** AJRC

offers a range of services tailored to meet the needs of **international patients**. From assistance with travel and accommodation to personalized care throughout the treatment process, the center ensures a smooth and comfortable experience. Dedicated **international patient** coordinators are available to provide support and address any concerns.

3. **Cost-Effective Treatment Options**: One of the key advantages of seeking treatment at AJRC is the cost-effectiveness of its services. Patients can receive world-class orthopedic care at a fraction of the cost compared to many Western countries, making it an attractive option for those seeking high-quality treatment without breaking the bank.
4. **Patient-Centric Approach**: AJRC is committed to providing personalized care that addresses the unique needs of each patient. **Dr. Ashish Singh** and his team focus on ensuring the best possible outcomes and enhancing the overall patient experience, from initial consultation through recovery.

Post-Treatment Support: The care provided by AJRC extends beyond the surgical procedure. The center offers comprehensive follow-up care and rehabilitation services to support patients throughout their recovery process, ensuring that they return to their normal activities with optimal results.

Key Features of Global Patient Services in India

1. **Comprehensive Care Coordination**: From the moment an **international patient** reaches out, dedicated care coordinators assist with every aspect of their visit.

This includes arranging medical consultations, scheduling procedures, and providing information about local accommodations and transport.

2. **Language and Cultural Support:** To ensure a smooth experience, many facilities offer language translation services and cultural orientation to help patients feel at home and reduce any communication barriers.
3. **High-Quality Medical Facilities:** India boasts numerous world-class hospitals and clinics equipped with the latest medical technology and staffed by highly trained healthcare professionals. These institutions are known for their excellence in various specialties, including cardiology, orthopedics, oncology, and more.
4. **Affordable Treatment Options:** One of the main attractions of **medical tourism** in India is the cost advantage. Patients often find that they can receive top-notch care at a fraction of the cost compared to their home countries.
5. **Post-Treatment Support: International patient services** in India often extend beyond treatment, offering comprehensive follow-up care and rehabilitation services. This ensures that patients receive continued support as they recover.

Why International Patients Choose Dr. Ashish Singh and Ashish Joint Replacement Care in India for Orthopedic Care and Best Treatment

From Great Britain to Bihar: How Dr. Ashish Singh Became a Global Favorite for Orthopedic Care

“Ditch the trouble of the waiting list for TKR, best services are now available at Patna for the best prices. I have been admitted to the best hospitals in the UK and USA, but truly my satisfactions till now have been met at Patna. Be it food, the surgery itself or the people around here- you will not find better at this price, I tell you Dr. Ashish will not disappoint.”

-75-Year old patient from London, United Kingdom

A 75-year-old patient from London recently underwent simultaneous knee replacements in Bihar using cutting-edge robotic technology at the [Ashish Joint Replacement Care \(AJRC\)](#), located on the fifth floor of the Savera Hospital Campus in Kankarbagh, Patna. This surgery highlights the unit's remarkable achievements, having completed over 1,000 successful robotic joint transplants within just three years of its establishment. Patna's rise as a medical tourism destination is a significant milestone for Bihar.

The patient, suffering from osteoarthritis—a condition affecting approximately 528 million people globally in 2019 according to the WHO—was highly impressed with the level of care provided. **Dr. Ashish Singh**, the Medical Director at AJRC, offers in-depth expertise in robotic surgery for knee and hip replacements. The patient described the experience as their “best decision,” noting that it surpassed all previous treatments received in the UK and USA. **International patients** from countries such as England, Pakistan, Bhutan, Nepal, Bangladesh, and Afghanistan are drawn to AJRC for its exceptional care and hospitality.

AJRC also attracts patients from various Indian states, including Guwahati, Dibrugarh, Tripura, Maharashtra, Mumbai, Delhi, Bangalore, Chhattisgarh, Nagpur, and Raipur. Many of these patients seek relief from the lengthy waiting lists and high costs associated with major cities, finding that Patna offers a metropolitan-quality experience at more accessible prices.

Robotic surgery at AJRC has dramatically reduced knee replacement times from 3-4 hours to just 40-50 minutes, enabling patients to stand within 4-5 hours post-procedure. This swift and effective approach, combined with exceptional care and affordable pricing, makes AJRC a top choice. Dr.

Ashish Singh emphasizes that the affordability of robotic procedures at AJRC exceeds other institutions by 40%, offering the benefits of advanced technology at the cost of traditional surgeries.

International patient services play a pivotal role in facilitating global healthcare access, making it possible for patients to receive world-class medical care in a foreign country. India stands out as a premier destination for **medical tourism**, offering a comprehensive range of services tailored to the needs of **international patients**. With institutions like **Ashish Joint Replacement Center (AJRC)** in Patna and **world-renowned orthopedic doctor Dr. Ashish Singh** leading the way in orthopedic care, patients can be assured of receiving exceptional treatment and support.

Whether you're considering **medical tourism** or seeking **international patient care**, understanding the scope and benefits of these services can help you make informed decisions and ensure a successful healthcare experience.
